WORK EXPERIENCE

AcidTango (Madrid)

NOV 2019 - Present

Product Designer

Currently, I'm in charge of the design of different projects involving IoT, VUI, and AR technologies. I collaborate closely with project owners, researchers, developers, and the marketing team.

frog Design (Madrid)

FEB-NOV 2019

Senior Visual Designer

Part of the UX and Visual Design Team creating tools and web app products working closely with Development and Brand teams of Telefonica Design Factory. I helped to achieve a better user experience in their products by applying animations and microinteractions to their design system.

Travelclick, an Amadeus Company (Barcelona)

2013 - 2019

Senior Web (UX/UI) Designer

In charge of the creative direction of websites and interfaces for the local and international hotel industry working directly with Project Management and Development Teams. I have been instrumental within the team in winning high-end clients with design pitches as well as improving the user experience of our products.
